

# 5.

## INNOVATIVE FARMING TILLAGE

**ADOPT ADVANCED SOIL TILLAGE AND ORGANIC FERTILISATION TECHNIQUES TO REDUCE EMISSIONS FROM SOILS.**

### TRADITIONAL TILLAGE

PLOWING AND FERTILIZING AT SEPARATE TIMES

MORE COMPACT SOIL AND MORE USE OF FUEL

LOSS OF ORGANIC MATTER DUE TO OXIDATION, CAUSED BY DEEP PLOUGHING

### INNOVATIVE TILLAGE

HIGH EFFICIENCY TILLAGE AND FERTILIZATION WITH GPS SATELLITE MAPPING

ONE-STEP TILLAGE AND FERTILIZATION

LESS COMPACT SOIL, REDUCED FUEL USE

OPTIMIZED LOGISTICS AND PROCESSING THANKS TO THE DIGESTATE STORAGE

**FARMING FOR FUTURE**

**INNOVATIVE FARMING TILLAGE**  
**INNOVATIVE FARMING METHODS ALLOW A SIGNIFICANT REDUCTION OF AMMONIA AND NITROUS OXIDE EMISSIONS, PRESERVING ORGANIC MATTER AND SAFEGUARDING SOIL FERTILITY.**

**10 ACTIONS TO FARM THE FUTURE.**
